## Data Sheet Label Holder

### Product description

#### Application

Label holder with easy insertion.

The self-adhesive strip on the back enables the label holder to be mounted on every flat surface. An extra rim at the top prevents dust accumulation.

The label holders can be used on all commercially available racks.

Typically used at locations where the information is changed occasionally.

#### Dimensions

Default:

Height: 18, 26, 30, 39, 52, 60 mm.

Length: 80, 100, 125, 150, 175, 200, 995 mm.

Pre-cut label holders are packaged according to the client's wishes per 100 pieces. Profile full-length 995 mm.

Additional dimensions are available on request.

Additional models are available on request.

#### Colours

Data strip colour default: transparent

Coloured back is available on request.
